

CLUB SERIES CSLU UPRIGHT LIFECYCLE® BIKE

The Club Series Upright Lifecycle® Exercise Bike is designed with the advanced engineering and durable components that exemplify our legacy of fitness expertise. Built for easy use, riders of all sizes can adjust the bike seat in seconds to ensure an optimum workout. This bike also offers a refreshed, non-intimidating console with more options for personalized entertainment, which helps exercisers complete more enjoyable workouts.

PERFORMANCE FEATURES

SEAMLESS COMPATIBILITY WITH IPOD

Connecting an iPod to the console charges the device to provide great motivation to the exerciser through music.

INTEGRATED ENTERTAINMENT CONTROLS

Newly integrated controls allow exercisers to skip songs, adjust the volume on iPod right from the console.

COMFORT CURVE™ SEAT WITH EASY ADJUSTMENTS

The convex shape and swept back seat design on our Club Series Upright Bike provide superior comfort. Ratchet seat adjustment with 27 positions makes it easy for users to adjust the seat height, even while in a seated position.

HEART RATE MONITORING

Lifepulse™ digital heart rate monitoring hand sensors are conveniently placed on the handlebars to provide precise heart rate monitoring, and Polar® telemetry provides accurate, “hands-free” heart rate monitoring. (Telemetry requires optional chest strap.)

SELF-POWERED CONVENIENCE

Cordless, so you can place your bike anywhere in your home.

Greener with EVERY MOVE

Certain components of our cardio equipment are no longer painted during the manufacturing process, which reduces our carbon footprint. This initiative also lowers the amount of Volatile Organic Compounds (VOCs) released into the air as pollutants.

HIGHLIGHT FEATURE

No need to move reading material – the dual-level console lets users manage workouts and read all at the same time. Plus, Lifepulse heart rate hand sensors are located in two positions—upright and racing—for comfort and convenience.

UPRIGHT BIKE DETAILS

- Comfort Curve Seat™
- Wide Ride™ pedals
- Ergonomic handlebars
- Dual-level alphanumeric LED console
- Heart rate monitoring
- 29 workouts, including 5 Zone Training+™ Workouts and Fit Test protocols
