2011 | SIGNATURE SERIES

Reimagining strength training

Introduced in 2003, Signature Series has evolved and expanded, allowing facility owners and designers to create customized environments.

The series features frame and upholstery color options, and now StackWraps™ on single station and cable motion machines to perfectly blend functionality and aesthetics.

A natural feel

Created by industry pioneers, all Signature Series machines have been tested to mirror the natural movements and strength profile of an exerciser.

A comprehensive look

Signature Series uses upscale elements including curved lines, sculpted pads and premium finishes for a dynamic look across the family of products.

Expand your workout

A dependable workout, from start to finish, the Signature Series has added a Pectoral Fly/Rear Deltoid, Assisted Dip Chin, Prone Leg Curl and more – offering users a complete strength-building workout.

Gallery Collection™

Try a preselected design combination, or create your own.

Refined Black Frame,
Terra Cotta Pads,
Rosewood Wrap

A customized environment

Going beyond frame and upholstery colors, StackWraps™ take our Single Station and Cable Motion machines to a new level of expression. Using technology developed for the automotive industry to withstand harsh conditions, our wraps add an eye-catching look for years to come.

Reimagined for your needs

Serenity Platinum Frame, Wheat Pads, Bamboo Wrap
